

K-Love, which is being threatened off the air in some places and already gone in my community due to LPFM, have served my in my community in several ways. Turning on the radio it is hard to find a station that plays good, clean music. As a young adult, I'm trying to pave the path to a good future and continue my faith in God. K-Love (before it went off the air in my town) provided a station that I could turn on at all times and know that there was nothing that would compromise my morals or beliefs and I knew there would be nothing that would offend me. This station was a way for all of my community to listen to Christian music and recall it in daily conversations. I remember one day I went to the bank and I was listening to K-Love and my friend pulled up next to me. I was singing along to the song and when I looked over, so was my friend and all of the other people in the car. It built a great sense of community among the people in my community. I believe that the services K-Love provides is a necessity in Grants, NM. You can turn on the radio to numerous stations that play music that says it's ok to have sex before you're married, it's ok to rape the girl you went out with, it's ok to do drugs, it's ok to vandalize, hurt, steal, destroy, and kill. But the one station my town had that went against all this and played music that promoted a healthy lifestyle was taken off the air. The things other stations promote are not just morally wrong, but dangerous. K-Love promotes what is morally right and safe, which in this destructive world we're living in, need to be heard. Thank you for listening to me.
